

MAGOFON

SAY 'YES' TO SPORTS, SAY 'NO' TO TRAUMAS

Any trauma causes pain and discomfort, and limits a person's vitality. The MAGOFON device has been specially designed to notably **speed up the recovery period**. The action of the device is based on a variable magnetic field and particular sound vibrations. MAGOFON is **perfect for those who are into sports**: it facilitates a fast recovery after physical activity. **Available internationally for over 10 years.**

INDICATIONS

- Muscle and ligamentous injuries
- Contusions
- Hematomas
- Joint injuries
- Fractures

HOW DOES MAGOFON WORK

-  **The microvibration.**
Restores the disturbed blood circulation and quickly boosts it up
-  **The magnetic field.**
Alleviates the pain and inflammation, activates metabolic processes
